IF MEN WERE WISE.

"What might be done if men were wise—
What glorious deeds, my suffering brother—
Would they unite
In love and right,
And cease their scorn for one another?"
—Charles Mackay.

Evening Party.

Mr. and Mrs. H. B. Bolton were host and hostess to a party of young folks Tuesday evening when they entertained at their country home near Hickory. The evening was spent in games and music and food watermelon was served. The guests numbered about 25.

Fruit Whip.

A quick dessert may be made from 2 large tablespoons of raspberry jam and the same of current jelly, beaten with the whites of 2 eggs and 2 tablespoons of fine sugar. Mix all together and beat until very light. Place in slender glasses and serve with small fancy cakes. Blueberries and rhubarb may be combined for jam. Use 1-3 more of the pieplant, by measure, than you do berries. Use a little water, only just enough to keep the

mass from burning, and sweeten well. Cook for 15 minutes and seal in jars. For pies it may be canned with less sugar. A little lemon juice or vinegar improves blueberry pies.—Miss Willis.

Coffee Jelly.

Soak 1-2 box gelatine in 1-2 cup cold water till soft; dissolve it in 1 cup boiling water, add 1-3 cup sugar and 1 pint of clear boiled coffee. When sugar is dissolved strain through fine cloth and turn into molds or shallow pans wet in cold water till firm. If cooled in pans cut in blocks, or break up with fork, when ready to serve. Serve with thin cream and powdered sugar.—Mrs. Lincoln.

Genuine Old-Time Sponge Cake.

The weight of the eggs in sugar, and half their weight in flour. This enables you to make a cake of any size you desire. The usual proportion for one loaf, by measure, is 4 large or 5 small eggs, 1 cup of fine granulated sugar, and 1 cup of sifted pastry flour, the grated rind and juice of half a lemon. Beat yolks till thick and very creamy, add sugar and beat till light colored; add lemon. Beat whites till stiff and nearly dry, and fold them in with care, so as not to break down the bubbles, sift in the flour lightly, and fold over (not stir) till just barely covered. Bake in a moderate oven

from 40 to 50 minutes. You will look far to find a better sponge cake than this when properly made and baked.—Mrs. Lincoln.

One-Egg Cake.

One-third cup cottage cheese, 1 cup sugar, 1 egg, 1 teaspoon vanilla, 1-2 teaspoon soda, 1 teaspoon cream of tartar, 2 cups flour, 1 cup milk. Rub the cottage cheese and sugar to a light cream; add the well-beaten yolk of egg and vanilla. Mix together the soda, cream of tartar and flour, and stir into the sugar mixture alternately with the milk. Add the well-beaten white of egg last. Bake in a shallow pan in a moderate oven about half an hour. Two level teaspoons of baking powder may be used instead of the soda and cream of tartar.—Mrs. Lincoln.

Sunshine Cake.

Have ready 1 cup sifted granulated sugar, also 2-3 cup of flour with 2-3 teaspoon cream of tartar sifted four times. Beat seven whites of eggs very light, with speck of salt, add sugar gently, then the yolks beaten thick and light, then flour and scant teaspoon extract lemon or orange. Bake in ungreased pan slowly about 50 minutes and cool in pan inverted. Remove from the pan and cover thickly with sweetened and flavored whipped cream. Garnish with candied cherries or nuts and serve.—Mrs. Armstrong.

Spices and Catchup.

Recently I saw the statement that home-made catchup is always dark. Mine is nearly, if not quite, as bright as the purchased stuff. I use whole spices and tie them up in a little cheesecloth sack. This I boil with my tomatoes before they are run through a sieve. If then I find they are not seasoned sufficiently, the little spice sack is returned to the tomatoes for a time. The ground spice is what darkens the catchup.—Mrs. A. K. Cal.

Come Easy, Go Easy.

My husband has made me a little article which I have found most convenient, and which saves me a great deal of work. It is a small platform mounted on casters. On it I keep my catchup. When I sweep the kitchen, instead of having to stoop and lift the heavy scuttle out of my way, I simply give the platform a shove with my foot, and presto! Then, when I mop up the floor I find it very convenient for holding the pail of water, for I do not have to lift it from place to place. This little platform is very easily made and requires only a small board and four good casters.—Mrs. C. T. Y. N. J.

A Costly Lesson.

I have just found that it is a tragedy to try to clean or refresh the face itself of a daguerreotype, except to clean the glass over it if that can be separated from the plate without touching the latter. Even a thumb mark on the foreground of the picture entirely obliterated the design of the carpet, not to mention my horror when I realized that by gently wiping a cloth over the faces to dispel the dust I had wiped away also the faces in the lovely group over which it had passed.—H. W. Mass.

If You Choose Your Corset Carefully

it will be a front lace—for only front lace corsets find favor now, and just as surely will it be

"La Camille"

Reg. Trade Mark, U. S. Pat. Office.

The Front Lace Corset
With the Ventilo Back

for no other corset interprets the new styles so subtly or possesses so many refinements and exclusive features. The Ventilo back and front shield, an exclusive feature of La Camille, represents the most important improvement of the last decade. By relieving all pressure on the spine, by providing a free circulation of air, by preventing the labor from scoring the flesh, really stylish corseting is permitted without a thought of discomfort.

Model 3601, illustrated, is for the average figure and shows how faithfully the approved style lines are interpreted in these new La Camille models. It has the new higher bust

line, the natural curve at the waist, following the figure closely—the somewhat shorter skirt. Made of coutil, tailor trimmed; 12-inch front clasp, three sets of bone supporters, elastic section at bottom of back. Price \$5.00

Other models at \$2.00 to \$25.00
